

SHARE
YOUR SKILL,
SHAPE
YOUR CITY.

#ShareAbility
www.flyfish.zone

Flyfish.zone: a social map where
you can search, offer and share
economic and social value.

Flyfish is a social network of urban sharing
economy, born to promote the sharing
of activities, services and skills between
"communities" living in the same city
or neighborhood.

From language lessons to small home
maintenance works, from babysitting
to helping the alone elderly, Flyfish
joins together the request and
the supply.

Flyfish also supports the local economy
and small businesses that encounter
increasing challenges and difficulties
in a globalized economy.

Our team, supported by the strategic
model COACH-ING www.coach-ing.it
that puts in a system, through relational
and technical **expertise, education,
training, engagement**, has increasingly
become a container of specific skills able
to intervene in a world in continuous
and fast evolution.

THIS IS FLYFISH TODAY!
